### Message from the Mayor: New Online Business Resource Guide Now Available

I am happy to announce the launch of the Town's new [Online Business Resource Guide](#). This Resource Guide is a result of our dialogue with you – the business community. It has been created to provide new, existing and prospective business owners information on the Town's business-oriented services and regulations. It is intended to serve as a resource to assist owners through the process of owning, operating and starting a business in Erie.

Erie is a proactive and business friendly community that values its businesses and works diligently to support their growth. That is why shortly after taking office as Mayor, I created a new support program designed to help businesses thrive and achieve long term success in Erie. It is called the Erie Economic Development Resource Committee. The committee includes the Town's Economic Development Coordinator, the Erie Chamber of Commerce, Erie Economic Development Council, local business leaders, small business service representatives, and other Colorado economic entities. Together we brainstormed and sought feedback from Erie businesses. We listened to the challenges new businesses face, and we asked what on-going support would be beneficial. I'd like to thank the Erie Economic Development Resource Committee for their valuable insight and assistance in putting this Guide together.

I encourage anyone who currently owns a business in Erie or is considering opening a business in Erie to check out [www.erieco.gov/bizguide](http://www.erieco.gov/bizguide) today!

Sincerely,  
*Mayor Tina Harris*
